After graduating from high school in Pawling, a small, upstate New York town, George Reed came to Texas to attend Baylor University. After graduation in 1981, George moved to Houston.

His six year quest for delicious Italian food that reminded him of the numerous small Italian restaurants of his childhood gave him the desire to open his own restaurant. George and his wife, René, founded George's in November of 1987 endeavoring to serve plentiful and delicious Italian food at moderate prices. For almost twenty three years we have "piled it high and sold it cheap".
